

STUDIO
JOACHIM-MORINEAU

Studio JOACHIM-MORINEAU

From a poetic vision to tangible products.

Studio Joachim-Morineau approach is hybrid: they merge tools, materials, and techniques to craft objects that tell a story.

Behind the name lies a duo of friends and designers, Carla Joachim and Jordan Morineau. Since 2018, they have been working four-handed to imagine a contemporary language and design objects. Most of their pieces are produced in their atelier in Eindhoven, The Netherlands and Nantes, France.

They make fluids solid: during their studies in Eindhoven, they invented the MOCA Dripping Machine, a tool merging craftsmanship and technology. Perfected at the EKWC, this machine is at the origin of a visual language that flows through most of their projects.

ARCEO FLOW

A line born from a single fluid gesture, free in space, that becomes a light.

ARCEO Flow is part of our new light, fluidity, and movement exploration. Its curves evoke the fluidity of a freehand-drawn line while engaging in dialogue with the surrounding space. The pieces integrate into architecture like a luminous trace, light, and sculptural. Each thermoformed plexiglass tubes hold a 360° LED neon, set into a precision-machined aluminum base. ARCEO Flow explores the boundary between installation, drawing, and luminous object.

The series was presented for the first time at the Good Selection exhibition in Milan in April 2025.

All the luminaires are designed, manufactured and assembled in our own workshop. Being based between France and the Netherlands allows us to bring together two design cultures: the poetic and sensitive tradition of French craftsmanship and the experimental and innovative approach of Dutch design. This fusion feeds a singular practice that questions the place of light in contemporary space.

ARCEO FLOW DL

Standing double light with an aluminium base
Limited edition of 8 pieces, numbered and signed.

Materials: Aluminium tubes and sheets
Dimmable LED (360 light) - 24v - Warm (3000k) or cold (5000K)
Satin acrylic tubes

Notes: possibility to anodise the aluminum.

Dimensions: Height 100cm, Base: Ø60 cm

Production: Depending stock otherwise up to 6 weeks

Price : 1670 € ex. VAT

ARCEO FLOW_SL

Single light to screw on the wall/floor

Materials: Aluminium tubes and sheets
Dimmable LED (360 light) - 24v - Warm (3000k) or cold (5000K)
Satin acrylic tubes

Dimensions: Depending on the shape and bends.
The tubes are 2m long

Production: Depending stock otherwise up to 6 weeks

Price : 885 € ex. VAT

ARCHETYPE COLLECTION

Archetypes is our first collection of furniture, which **visually and structurally incorporates ancient Roman architectural elements**. Inspired by emblematic edifices such as Pont du Gard (Roman aqueduct, FR) and ruins from the Parco Archeologico del Colosseo in Rome, we translated these **classic sculptural languages into a new industrial aesthetic**.

Composed of a table, several columns and a range of luminous objects, we see this collection as a starting point. For **Paris Design Week**, we developed a new **side and coffee table based on the same process**.

All of our objects are made with a modern language of material and process: we use **factory-made standardized metal profiles and sheets to create our compositions**. We see a lot of potential with these **industrial (waste) parts** for their **durability, recyclability** and the possibility to engage a large scale production.

Mini Arceo

Materials: Aluminium tubes and sheets
Dimmable LED (360 light) - 24v - Warm (3000k) or cold (5000K)
Satin acrylic tubes

Dimensions: 35x25x15 cm
Weight: 1kg

The lamp is equipped with a touch switch to dim the light. Press one time to turn it on/off and stay longer to change the intensity lower/higher.

The plug works on sockets 220v, type E & C (Europe).

Production: Depending stock otherwise up to 6 weeks

Price : 368 € ex. VAT

Columns Tholos, Pteron & Metope

Limited edition - 8 pieces

The columns that can serve as a pedestal to display your favourite objects (or plants). Designed to create a historical presence in your interior, the pedestals are inspired by different temple structures and column shapes from the Parco Archeologico del Colosseo in Rome.

Materials: Anodized aluminium profiles and sheets

Dimensions: 100x30x30 cm

Weight: From 12 to 19kg

Production: 6 to 8 weeks, each piece is produced on request. Designed and assembled in our workshop in Eindhoven, the Netherlands.

Price : 2570 € ex. VAT

THOLOS

PTERON

METOPE

Coffee Table Tholos

Limited edition of 8, numbered and signed

Materials: Anodized aluminium profil and sheets.
Possibility to change the top.

Dimensions: Height: 41cm, Diameter 80cm
Weight: 15kg

Production: Made to order 5-8 weeks

Price : 2230€ ex. VAT

Side Table Tholos

Limited edition of 8, numbered and signed

Materials: Anodized aluminium profil and sheets.
Possibility to change the top.

Dimensions: Height: 56cm, Diameter 43cm
Weight: 15kg

Production: Made to order 5-8 weeks

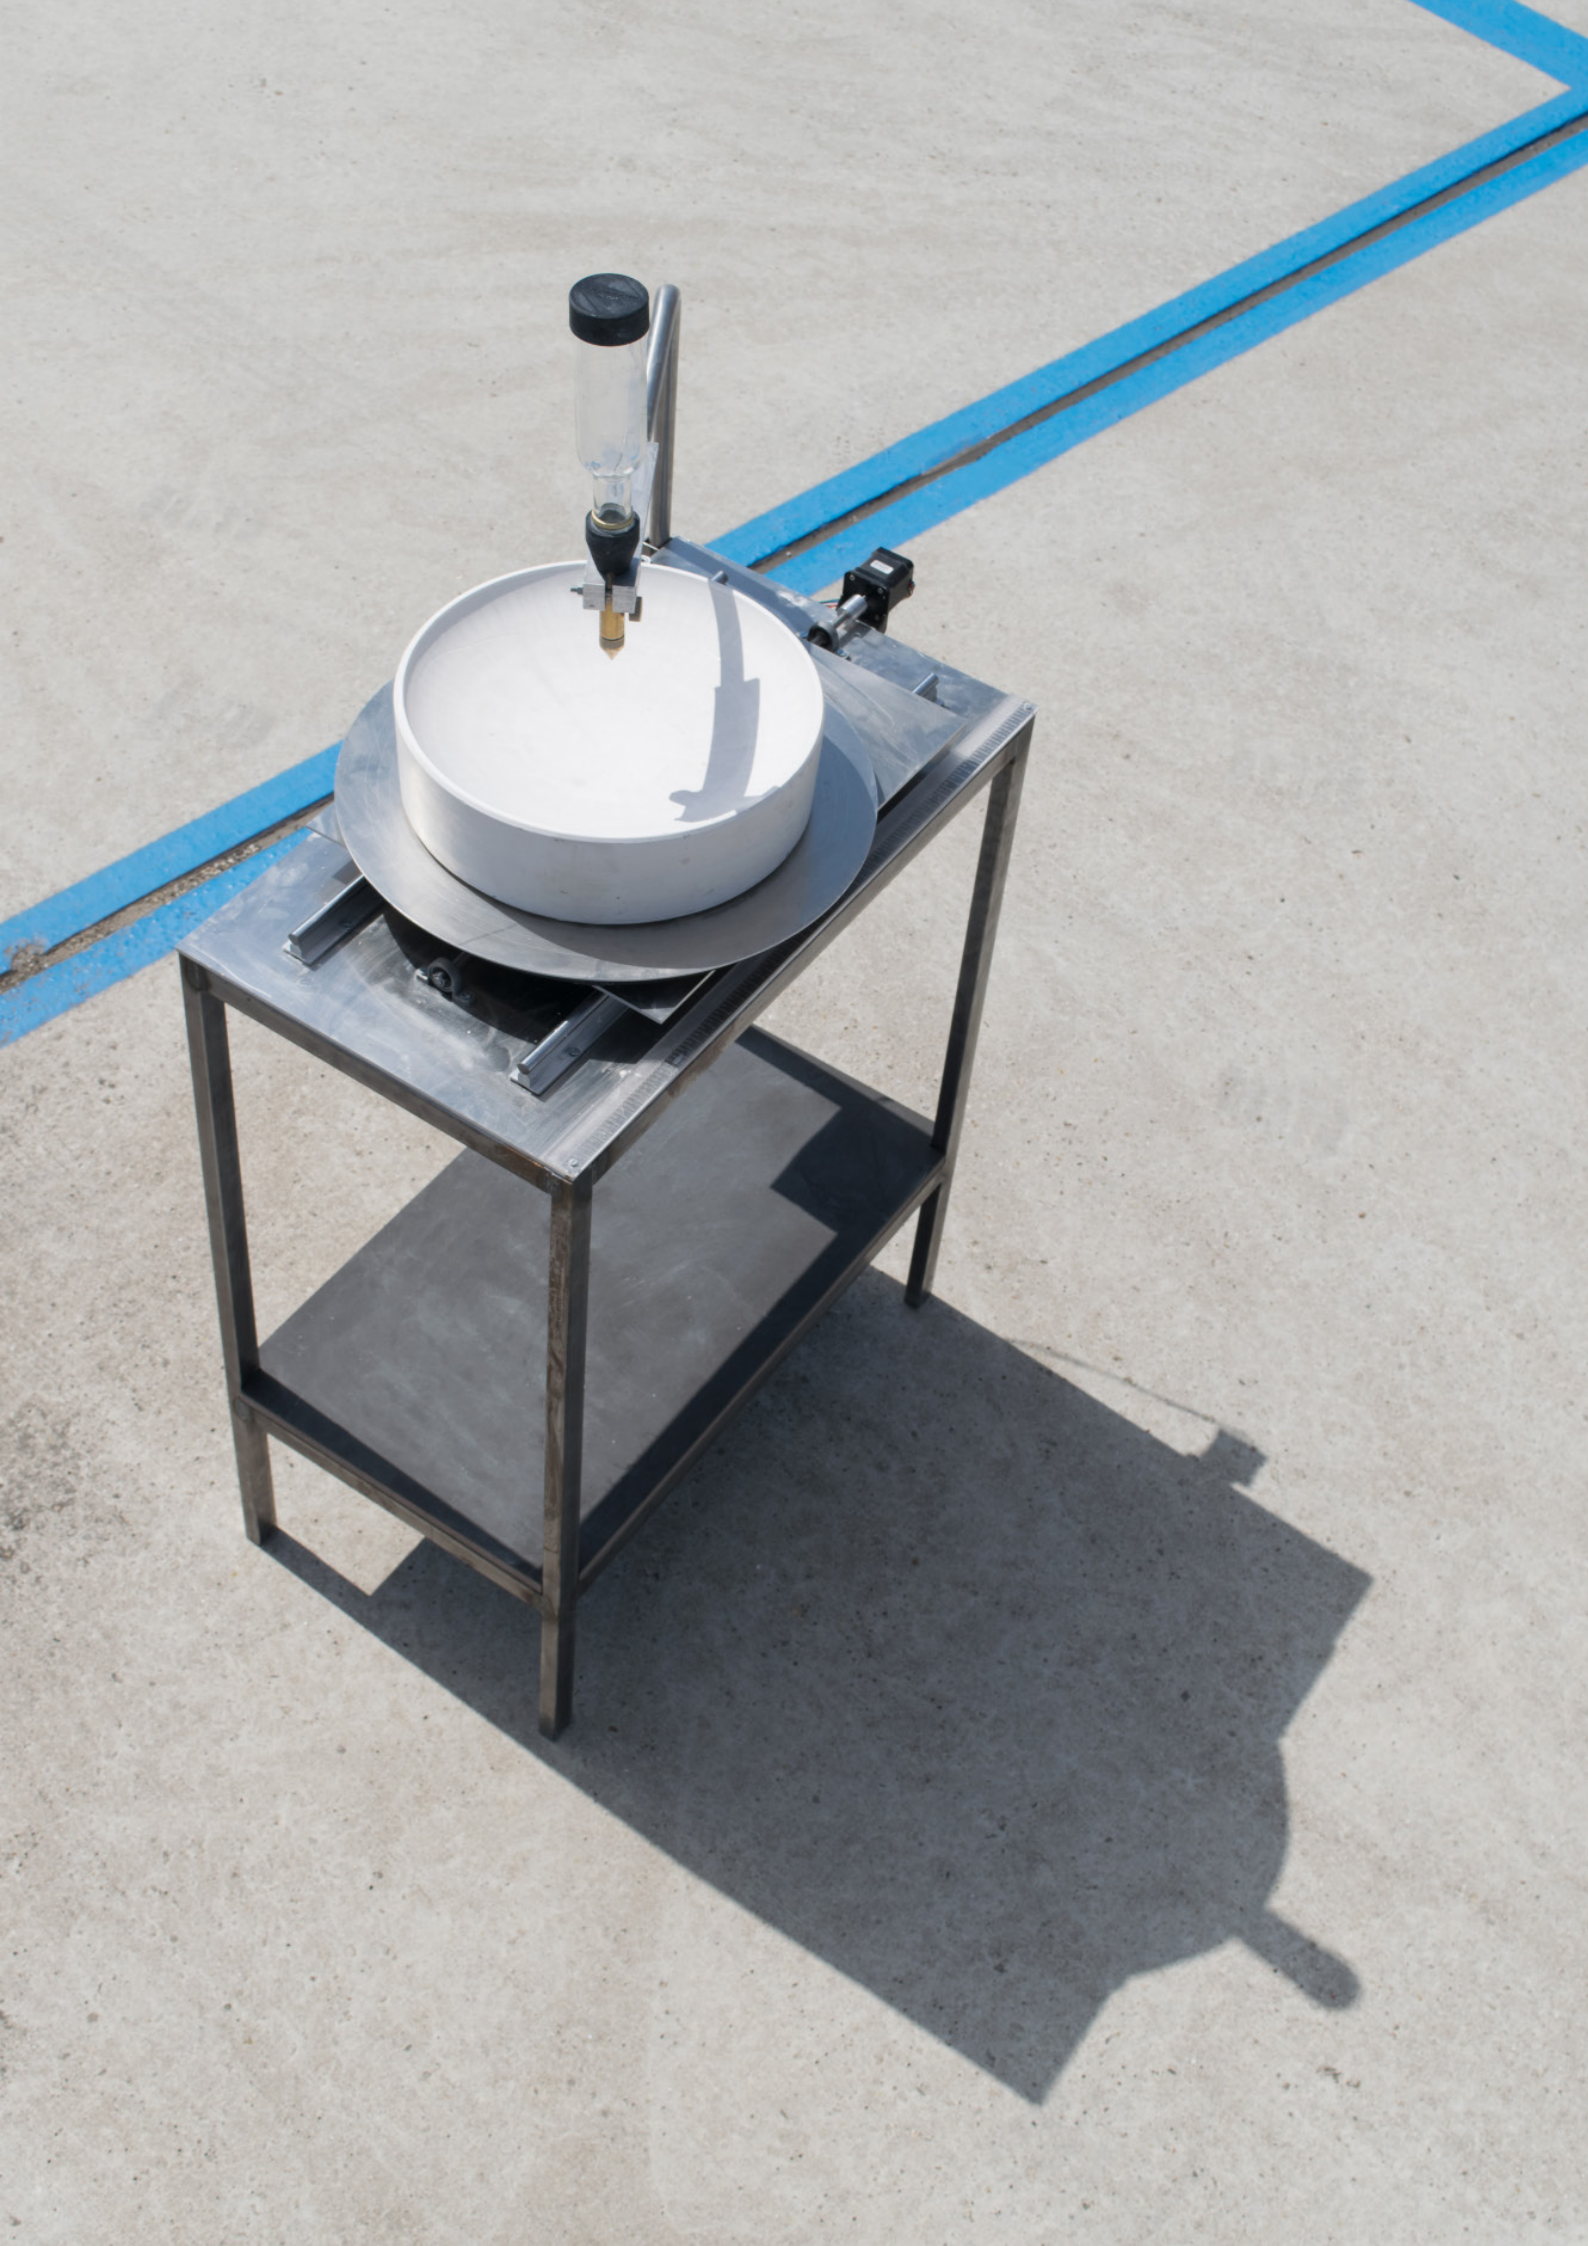

Price : 2070 € ex. VAT

MOCA TABLEWARE

Moca Tableware is the new ceramic brand created by Studio Joachim-Morineau. This is a continuity of the MOCA project, where each piece is crafted using a custom-developed dripping technique to ensure that every tableware item is unique.

The machine

The machine drips liquid clay at a certain rhythm which creates innovative ceramics with a distinct visual language.

Moca cups

Each pattern is unique due to the codes we use and the coloured porcelain we mix for dripping.
The slipcast (ceramic process), finishing touches and glazing are done by hand in our studio in Eindhoven.

The cups are dishwasher-proof. However, preferably washed by hand.

Materials: Body: Porcelain.
Patterns: Porcelain mixed with cobalt oxides.
Glazing: Transparent food-safe glazing.

Dimensions: Height: 9cm, Diameter 8,5cm

Production: Depending stocks. Minimum order 12
Possibility to personnalize (colors & pattern)

Price : 21 € ex. VAT

Moca Espresso cup

Materials: Body: Porcelain.
Patterns: Porcelain mixed with cobalt oxides.
Glazing: Transparent food-safe glazing.

Dimensions: ≈ 85 ml / H: 7 cm / Ø: 6 cm

Production: Depending stocks. Minimum order 12
Possibility to personalise (colors & pattern)

Price : 12,40 € ex. VAT

Moca bowl

Materials: Body: Porcelain.
Patterns: Porcelain mixed with cobalt oxides.
Glazing: Transparent food-safe glazing.

Dimensions: ≈ 350 ml / H: 5 cm / Ø: 13 cm

Production: Depending stocks. Minimum order 12
Possibility to personalise (colors & pattern)

Price : 24,80 € ex. VAT

Moca plate

Existe in Ø: 16 cm ; Ø: 19 cm ; Ø: 24 cm

Materials: Body: Porcelain.
Patterns: Transparent glaze mixed with cobalt oxides.
Glazing: Transparent food-safe glazing.

Production: Depending stocks. Minimum order 12
Possibility to personnalize (colors & pattern)

Price Dessert Plate : 21 € ex. VAT

Price Medium Plate : 24,80 € ex. VAT

Price Large Plate : 33 € ex. VAT

Vase Moca 3/100

Vases Moca - Ten thousand drops

Limited edition of 100 pieces, numbered and signed.

The machine drips glazing on top of the vase to create a mathematical pattern: 10 000 drops. Playing with the computer code, we want to push the limit of the technique and see how many combinations we could make.

Materials: Earthenware with colored glazing on the outside and transparent glazing on the inside.

Dimensions: H30cm, Ø20cm

Weight: 2 kg

Production: Slip-cast and finish by hand in our workshop in Eindhoven. The pattern is made with the dripping machine.

Advised retail price : 440€ ex. VAT
Catalogue available on demand.
